Hi Luis,
Could you help me to answer this message. I'm out of the office this week.

Thanks

Subject: Re: MultiGWAS

No suele recibir correos electrónicos de kjo958174@gmail.com. Por qué esto es importante

could you forward the three input files for matrix format to me?

Dear Dr. Paula H. Reyes-Herrera,

I am interested in your software; MultiGWAS for analysing tetraploids.
I implemented the software with the given examples in your github.
fitpoly, gwaspoly, vcf and updog formats are working well.
the matrix format doesn't work.
I can't find what happened in the input data.

Could you figure it out?

thanks for your help,

with kind regards,

KR Jo
